

PRODUCT DESCRIPTION

APP 366 is an anti-fungal bonding and sealing adhesive specially used in bathrooms, kitchens, etc. It has good adhesion to a variety of building materials such as ceramics, glass, and aluminum, can effectively inhibit the growth and reproduction of various molds, and features stain resistance and easy cleaning.

PRODUCT PROPERTIES

- One-component, neutral curing;
- Good extrudability and thixotropy;
- Good adhesion to a variety of substrates;
- Excellent weather resistance and reliable long life;
- Environmentally friendly, no corrosion, no pungent odor.

TYPICAL APPLICATIONS

- Suitable for sealing washbasins, toilets, shower enclosures
- Suitable for sealing sinks, cabinets, countertops, cooking appliances, etc
- Suitable for bonding and sealing various furniture mirrors
- Exhibits excellent bonding performance on glass, aluminum, ceramics, concrete, and wood

TYPICAL TECHNICAL DATA

Test item		Indicator
Sag, mm		≤2
Extrudability, mL/min		≥50
Tack-free time, min		≤25
Tensile modulus, MPa		≥0.4
Adhesion properties at maintained extension		No damage
Adhesion properties at maintained extension after water immersion and ultraviolet irradiation		No damage
Adhesion properties at maintained extension after cold drawing and hot pressing		No damage
Thermal weight loss		≤8
Mildew resistance rating	0	0

**TECHNICAL DATASHEET: APP 366
KITCHEN & BATHROOM ANTI-FUNGAL
ADHESIVE TECHNICAL DATA SHEET**

STANDARD COMPLIANCE

This product meets the standard: JC/T 885-2016.

PACKING SPECIFICATION

Plastic cartridge packaging: 300 mL/cartridge
Available in white and translucent

STORAGE AND SHELF LIFE

Store below 27°C in a cool and dry place. Shelf life of sausage is 9 months from the date of production.

TECHNICAL INFORMATION

Cannot be used as structural sealant.
Not suitable for use on the surfaces of all materials that exude grease, plasticizer or solvent, such as oil-impregnated wood.
Not suitable for use in airtight, moisture-free places, as the sealant needs to absorb moisture from the air to cure.
Not suitable for use on frosted or wet surfaces.

CAUTIONS

This product is not toxic after full curing, however avoid contact with eyes before curing. If contact with eyes occur, rinse with plenty of water and get medical attention. Uncured product should be out of the reach of children. This product releases alcohols during the curing process, so ventilation should be provided in the application and curing area to avoid adverse effects on people caused by excessively concentrated alcohols.

NOTE

The information contained herein is believed to be reliable. Due to the wide range of actual conditions, it is impossible for us to have a comprehensive understanding of everything, so we cannot guarantee the correctness and suitability of our product for certain usage and purposes. Users should have a detailed understanding of the product before using it, and then decide for themselves the best way to use it.
